

The following testimonials have been received for the **Introduction to eDisclosure** course:

*"Excellent. Incredibly useful and relevant to me as a litigator"* - Associate : Taylor Wessing

*"I actually thought it would be most useful for trainees/NQ's who have just joined a litigation department and are likely to manage large scale document reviews (whether or not they proceed to trial/arbitration)".* - Electronic Evidence Consultant : Kroll Ontrack.

*"Really good day, interesting and informative."* – Solicitor : Contract Review Lawyer.

*"The Allvision eDisclosure course was very informative and interesting. It was very well structured and a lot of eDisclosure material was provided for each individual to take away with them for future reference, if needed. A solid insight into the eDisclosure process was demonstrated along with the different EDRM stages that need to be completed from volume right through to relevance. I found the course very valuable and learnt a lot more about the UK eDisclosure marketplace. I found the workshop in the afternoon particularly useful and enjoyable as this gave me a chance to interact with the our course attendees (solicitors, buyers, providers), and this really gave me an insight into different perspectives. My attention was definitely engaged all day and the trainer showed excellent knowledge of the market. I would recommend the course to others. A good day for networking too, so would advise individuals to take along business cards."* – Account Manager : Merrill Corporation

*"Really good day, lots of new information. Think it's great for people new into the area."* - Forensics Consultant : Millnet.
